Subject: End of Life Notification for R596.xxxxxx Part Numbers

Dear Customer,

In an effort to increase Radiall's new product offerings and reduce components in our inventory, we have made the decision to stop manufacturing certain products that have reached the end of their life cycle. As a result, Radiall is announcing that **R596.xxxxxx part numbers (Slim Line relays)** will become obsolete **on October 28th, 2022**.

In lieu of this obsolescence, we designed an evolution of these products, the **R516 series (Quartz relays)**, which is available now.

Should you have any concerns regarding high demand for any of these part numbers in the future, you can still order **R596.8xxxxx part numbers (Slim Line 8GHz relays)** to cover your needs until the date of obsolescence. Nevertheless, we advise you to qualify and replace them with our new **R516 series**.

Do not hesitate to contact your local sales representative or authorized distributors if you have any questions about this obsolescence.

Sincerely,

Marina OJEDA
Product manager
